## **BOOK SYNOPSIS**

The stepmothers role often is ambiguous and underappreciated, and frequently it carries unrealistic expectations. The book answers womens concerns and questions, including: How can I be a caretaker and a key emotional connector in the family if the children dont accept my influence? How should I cope with children who are confused about their family and torn between loyalty to their biological mother and me? When should I step back in conflicts and when should I insist that my husband stand up for me?
